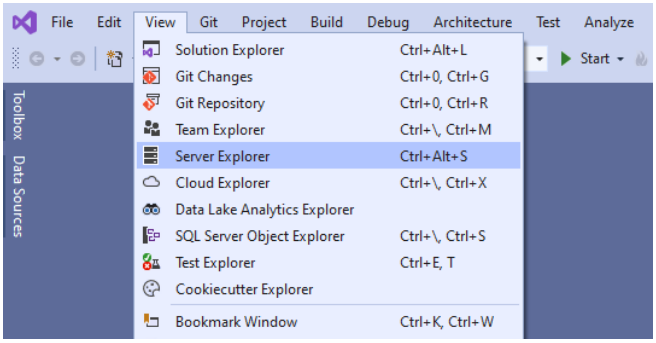
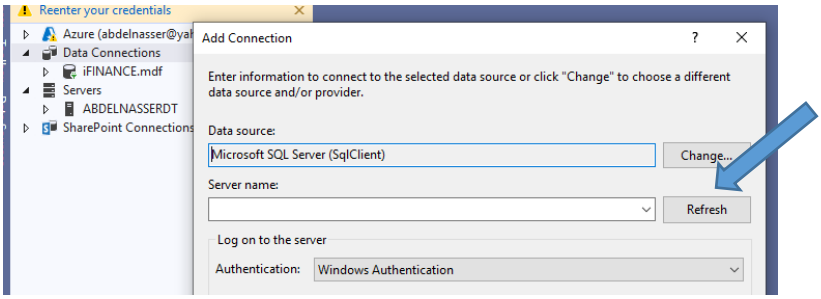
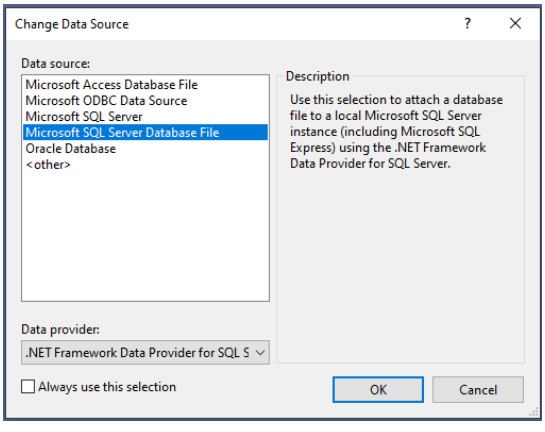
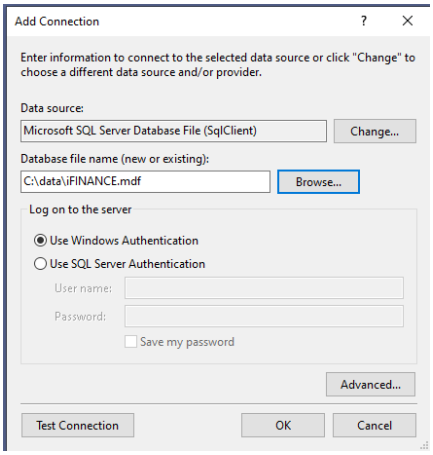
Please make sure to do the following steps before running the provided code for Project1-Phase3:

1. Create a new folder named “data” in your C drive as “c:\data”
2. Copy the two files iFINANCE.mdf and iFINANCE_log.ldf into this new “data” folder.
3. Download the iFINANCE.zip file from OWL. Unzip it and then open the C# project by clicking on iFINANCE.sln file.
4. Follow the instructions guided by the images below:









Add Connection
Enter information to connect to the selected data source or click "Change" to choose a different data source and/or provider.
Data source:
Microsoft SQL Server Database File (SqlClient)
Change...
Database file name (new or existing):
C:\data\iFINANCE.mdf
Browse...
Log on to the server
Use Windows Authentication
Use SQL Server Authentication
User name:
